

**Mandatory – Must be applied at all locations**

## Self checking Respiratory Protective Equipment (RPE)

All RPE used on site must:-

- Have self checking functionality in design
- Be semi reusable (Not disposable)
- Wearer to be fully face fitted for type and design of RPE (in date)
- Correct filters fitted for the hazards
- Wearer to be clean shaven (within 24hrs)
- Be maintained, kept clean and stored appropriately.

Selection and use of RPE is part of the ongoing risk assessment process which must be undertaken for each task.
