

Sunscreen

Regular use of sunscreen reduces the risk of skin cancer by over 40%.

Morgan Sindall encourages all operatives to keep covered when working in direct sunlight. The sunscreen provided is for your use. It is suggested you apply regularly for better protection. Also ensure you drink water regularly.

ALLERGIES

If you suffer from any skin allergies then please check the information provided before applying. If you suffer from skin allergies we suggest you use a sunscreen that you have used before, and you are comfortable with. If you have any concerns then please speak to the Site Management Team.

Everyone has the right to be

100% Safe

Safe by choice

Safe by design

Safe lives

Safe places

Safe relationships
